

# WEATHER-PACK CONNECTORS

Weather-Pack series is a general purpose sealed automotive connector. Connectors shown on this page are common types for general purpose connections. Terminals and wire seals shown at the end of this section.

**Weather-pack Specifications:** ● Cable Range: 0.35-3.0mm<sup>2</sup> ● Current Range: 0-20A ● Temperature Range: -40°C to +125°C  
● Resistance: <10milliOhm@20mV ● Voltage Drop: <3.0mV/A ● Terminal Centres: 7.7mm

**28111**  
Male housing.  
1 circuit.

**281133**  
Male 3 circuit housing.  
Double keyed.  
Suit Delphi 1bar  
MAP sensor.

**28101**  
Female housing.  
1 circuit.

**28106**  
Female housing.  
6 circuit.

**28112**  
Male housing.  
2 circuit.

**28102**  
Female housing.  
2 circuit.

**28022**  
Female housing.  
22 circuit.

**28114**  
Male housing.  
4 circuit.

**28103**  
Female housing.  
3 circuit.

**28113**  
Male housing.  
3 circuit.

**281141**  
Male housing.  
4 circuit.

**28104**  
Female housing.  
4 circuit.

**28122**  
Male housing.  
22 circuit.

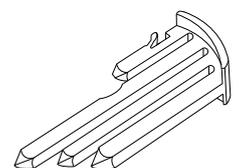

**281131**  
Male 3 circuit housing.  
Double keyed.  
Suit Detroit Series 60  
turbo sensor.

**28116**  
Male housing.  
6 circuit.

**281041**  
Female housing.  
4 circuit.

**28622**  
Secondary lock.  
Two used with 28122  
and 28022 housings.
